On June 16, 2011, under the International Labor Organization (ILO) Conference 189, giving many guidelines, giving home work a decent work, which supported most of the countries including India.

Recalling this historic international decision to limit domestic work and providing labor status to domestic workers, the World is celebrated as International Domestic Workers Day on June 16th.

In spite of being a major contributor to society, economy, politics and culture, domestic workers are constantly overbearing and exploiting both their homeowners and the government. They get the right wages since the government has not made any proper law for the domestic workers till date, so even though they are so exploited, they do not get any fair justice.

Today, on the occasion of International Domestic Workers’ Day on June 16, 2018, we keep the following demands in front of the domestic labor government and labor department:

- ILO 189 को भारत सरकार अवलम्ब अनुसर्गन करें।
- घरेलू कामगारों के लिए समुचित कानून बनाया जाए।
- घरेलू कामगारों को बी.पी. एल. १५० सूची में शामिल किया जाए।
- सरकार घरेलू कामगारों के लिए आवास की योजना करें।

Since the government has not made any proper law for the domestic workers till date, so even though they are so exploited, they do not get any fair justice.

Government of India urgently to ratify the 189th. Proper laws should be made for domestic workers Wages of domestic workers are notified according to work. BPL details to domestic workers
